AWARENESS FOR CHANGE

AWARENESS FOR CHANGE

We believe coffee has the power to create a positive impact on people and the world.

But real change requires the industry to evolve, guided by **conscious choices**.

This is where our journey begins: **nurturing awareness to inspire change**.

And you, where do you begin?

HOW WE CRAFT COFFEE

Since 1994, we have been roasting specialty coffee.

But time is not the point. It's about how we choose **to work in an industry that calls for greater awareness** of everything behind each cup, all along the supply chain.

Today, making good coffee is not enough and neither is simply making Specialty coffee.

We choose to craft Specialty coffee that has a **positive impact on both people and the planet**.

Awareness for Change is how we turn this responsibility into products, packaging, and everyday relationships.

BLENDS: BALANCE IS NO ACCIDENT

Our blends are crafted **for café use** and **they perform just as well at home**.

They are designed to deliver **balance**, **consistency** and a **recognizable** profile in the cup, suited to a range of tastes and drinking occasions.

From warmer, more traditional notes to brighter, more aromatic and contemporary profiles, each blend is built to be both distinctive and consistent over time.

In this catalogue you'll find only **Arabica Specialty**, **Fine Robusta**, and **specially selected coffees**.

To create our recipes, **we personally select the coffees at origin**, **roast them**, and **blend them** with care: the result is always a product with a clear identity and transparent quality.

Elpy helps guide you to the blend that **suits** you best, and through a **QR code** you can **explore** further details.

PASTICCERI

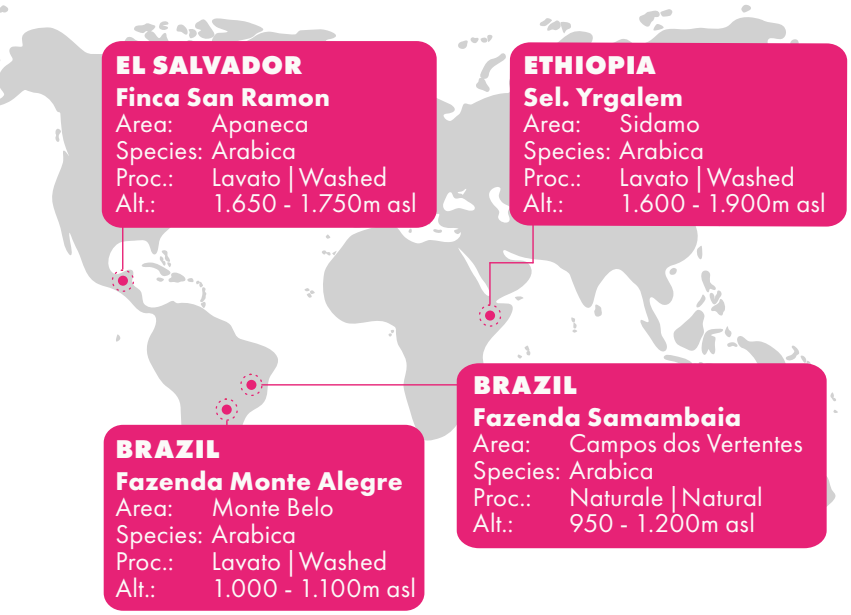

100% ARABICA

An elegant and aromatic espresso. Crafted by pastry chefs, for fine pastry art.

SINGLE COFFEE ESTATE

Our single estate coffees are **100% traceable Arabica Specialty**, sourced from **specific farms**, **cooperatives**, or **small producer groups**.

We personally select them by traveling to the **countries of origin** to showcase their distinctive and recognizable aromatic profiles.

Alongside our blends, they broaden our range with single origins that express the story of their terroir, varietals, and processing methods.

Each coffee includes a **QR code linking** to detailed **information** about its **origin** and **supply chain**.

Originally developed for the **Ho.Re.Ca** channel, these coffees are now also available in **retail formats**, allowing the café experience to be enjoyed at home as well.

COOPCHEBI

100% ARABICA
ORGANIC COFFEE | FAIRTRADE

Cultivated as an alternative to coca farming by 72 members of the Coopchebi cooperative in the Peruvian regions of Junín and Pasco, this coffee supports a high-quality, legally grounded agricultural initiative.

AROMA:

WATER DECAFFEINATED COFFEE

Our decaffeinated coffee is produced using a **water-based process** that removes caffeine **without chemical solvents**, preserving the coffee's full aromatic character.

Through a combination of **water**, **steam**, and activated **carbon filtration**, caffeine is gently extracted while the elements that shape the coffee's **sensory profile** remain intact.

The result is a refined cup, **smooth**, **clean**, and perfectly balanced, even without caffeine.

WATER DECAF

100% ARABICA - CAFFEINE < 0,1%
ORGANIC COFFEE

Cultivated in Motozintla, in Mexico's Chiapas region, this coffee is decaffeinated using the Mountain Water process, a water-based method that preserves the coffee's quality without the use of chemical solvents.

OTHER COFFEE FORMAT

Our work extends beyond whole bean coffee.

Our range is completed by **ground coffee**, **single-serve pods**, and **cold brew concentrate**, designed for different drinking occasions and brewing methods.

Ground coffee offers a **more accessible way to enjoy our coffees for everyday home brewing** in its most traditional form.

Pods are intended to bring the quality of our blends to professional environments, from **restaurants** and **offices** to **coffee corners**.

Our **cold brew concentrate** offers an **easy way to prepare refreshing cold coffee-based drinks**.

The range is complemented by **point-of-sale materials**, designed to **support service** and enhance the coffee experience.
